

Homework

Show interest in your child's schoolwork and talk to them about it! For the most part, your child should do homework **on their own** at a specified time and in a quiet and tidy place. Please check to see that the homework is complete.

Regular practice at home will increase your child's self assurance. However, do not ask too much of your child by practicing too long or by skipping ahead in the learning material.

Respond calmly if the mark your child receives does not meet your expectations. A **reasonable conversation** with your child will have more effect than scolding or punishment!

Recreational Activities

Your child needs **adequate physical activity** in the afternoon – optimally outdoors – to offset the intellectual work at school.

Watching TV, computer games and internet activity should not be done for more than 30 minutes a day. Pay attention that TV shows and games are **appropriate for the age** of the child. Put your child to bed at an appropriate time so that she/he can be fit for school the next day! Children of primary school age **need 10 to 12 hours of sleep** each night.

In case of **questions** or **problems** you may contact the child's **teacher** or our **social workers**, **They** will also support you in conflict situations or will give you advice on questions related to upbringing.

Our school rule is
"We live peacefully together!"

Let us all work together on this!

With kind regards and
best wishes for a successful school year –

Dear Parents,

A new school year has begun and you, as parents, can play an important role in the development of your child at school. We would like to give you a few pointers for your child's successful daily life at school.

The Way to School

If possible, let your child walk to school. There are surely other children in the neighborhood who attend the school, so your child will not need to walk alone.

It is important that at the start of the school year you walk together with your child along the safest route and point out any potentially dangerous places. In this way your child will learn how to behave correctly in traffic and will be proud to be able to master the way to school on her/his own.

For **safety reasons** we ask that you deliver/pick up your child at the **school's main entrance**.

In case of illness

Please excuse your child **before 8 o'clock** in case of illness.

Office telephone number: **5370400**

School Start

The school building opens at **7:30**. Your child can stay in the assembly hall or school library at this time.

Teachers are in the classrooms starting at **7:45**. These 15 minutes are used for organizational things such as turning in home work or setting up. Communication with other pupils is also important.

Therefore, please send your child to school **punctually** so that the school day can begin calmly.

School Material

Please pay attention that your child's school things are **complete** and **tidy** so that she/he is able to work well during class. Place the child's **name** on all material. Together with your child, check her/his school bag regularly (at least once a week) and, if necessary, add anything that is missing (e.g. glue). Please control your child's cardboard folder ("Jurismappe") every day and return **parent letters** and **learning objective controls/tests** on the designated date.

Snacks at Breaktime

A well-balanced, healthy diet gives your child the energy she/he needs each day at school.

Breakfast before school is important for a good start to the day. A healthy **snack for the break** (whole-grain bread, fruit, vegetables) and adequate **drinks** (water, fruit juice) help your child to concentrate and work well during class. **Sweets** and **drinks containing caffeine or sugar (cola, Spezi, ice tea)** are not appropriate.

Going to the toilet

Please speak with your child about how to use the toilet responsibly (leaving the toilet **clean**, **washing hands**, and remind them that toilet paper and paper dispensers are not play things!)

Clothing

Please pay attention that your child has **practical** clothes and shoes that she/he can put on and take off by herself/himself. This also applies to **sports clothing**. **Jewelry** must be taken off prior to sports class.

Clean clothes and a **well-kept appearance** support your child's self-esteem.
